

CABERNET SAUVIGNON I.G.T.

This wine is produced from an international black grape variety, originally from France. The wine has an intense ruby red colour with purple reflections. The vinosity grabs us early on but soon the wine becomes more complex, with hints of raspberry.

The ageing highlights the floral notes with clear hints of violet, light aromas of ripe fruit and plant notes. The flavour is rich, full-bodied, with delicate notes of black cherry and hints of wild berries with a dry finish, with the right tannic balance, to the point that the body takes on an accessible roundness.

RECOMMENDED COMBINATIONS

Cabernet Sauvignon is suitable for the most demanding courses on the menu, in particular for roast pork, ribs of beef, game in general and medium-aged cheeses. It also goes well with pasta in meat sauce.

SERVING TEMPERATURE: 16-18° C
